***Terminal Disclaimer***

1. The terminal disclaimer filed on 9/28/04 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of serial number 09/953978 has been reviewed and is accepted. The terminal disclaimer has been recorded.

***Claim Rejections - 35 USC § 102***

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 23-29, and 31 are rejected under 35 U.S.C. 102(b) as being anticipated by Edington (5220737).

Edington shows an article of footwear comprising an outsole (14), a midsole (12), an upper (16), a bladder (38), a bladder support device (50) having spaced ribs (58 and 60), a base (56), and reinforcing rib (shown in figure 5, two of which connect the spaced ribs) and the bladder is “visible through the spaced apart support members” (at 24 and 32 and the bladder is visible through the support members because they are transparent, note column 5 line 54) as claimed.

***Allowable Subject Matter***

4. Claims 1-22 are allowed.

5. Claim 30 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

***Response to Arguments***

6. Applicant's arguments filed 9/28/04 have been fully considered but they are not persuasive.

In response to applicants' argument that the bladder of Edington is not "visible through the spaced apart support member", the bladder of Edington is clearly "visible through the space apart support members", see column 5 lines 44-55 which clearly describe how the holes in the sidewalls of the midsole allow the sides of the support members which are transparent to be seen and that the support members are transparent so that the bladder can be visible through the support members.

***Conclusion***

7. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any

Art Unit: 3728

extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
